DO

- Be authentic, passionate and honest in your description. Use an informal tone & humour. It is important that people really feel they can connect with you easily.
- Ask your friends to describe you and use their answers to better write your description, video script and highlights.

DON'T

- Be fake, indifferent, impersonal, obvious, salesy
- Don't be afraid to show your best qualities, this is not the time to be modest.

DO

- Politely ask your customers at the end of the tours to add reviews
- Smile! Transmit positive vibes in your photo.
- Keep your calendar up to date!

DON'T

- Don't be afraid to ask for reviews
- Don't take your photo when you are in a bad mood or in a hurry.
- Don't give limited availability, try to always have at least 3 days per week

Description: I am a local to Eindhoven and know the city inside and out. I studied history and archaeology which allowed me to learn more about my beautiful country and its history. My idea of the perfect day would be sitting on the terrace, soaking up the sun while reading books. Then when I have finished reading I love to go and socialise with my friends in the city, we are always discovering amazing places to eat and drink (I know some of the really secret spots not in the guide book). My other passion is music, I teach guitar to kids when I am not showing people around my city.

DON'T

Description: Together we can discover the hidden beauties of the cities and the vibes that make it unique.
